INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1959 edition of the Fuquay Springs and Varina City Directory, which also includes the rural routes emanating from the Fuquay Springs and Varina Post Offices.

This is the first Hill Directory of Fuquay Springs and Varina, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Fuquay Springs and Varina's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Fuquay Springs and Varina to the world.

The enviable position occupied by Hill's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the Fuquay Springs and Varina Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of Fuquay Springs and Varina, arranged in alphabetical order under appropriate headings—a catalog of all the activities of Fuquay Springs and Varina. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In progressive communities like Fuquay Springs and Varina, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupa-

tion and address of each adult resident of Fuquay Springs and Varina, and on the Fuquay Springs and Varina rural routes, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as a perpetual and reliable advertisements of Fuquay Springs and Varina. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Local Financing

The community is prepared to finance buildings for lease on a sound and reasonable basis to reputable companies. Excellent sites are available. Citizens of the community are anxious to have new industry, and the "Business Climate" is unexcelled.

The Research Triangle

The town of Fuquay Springs is located 30 minutes from the Research Triangle of North Carolina. The Triangle consists of the University of North Carolina in Chapel Hill, Duke University in Durham and N. C. State College of Agriculture and Engineering in Raleigh. More than 850 research people on the staffs of these three institutions are currently at work. Their interests range from the most abstract mathematical formulations to the immediate and practical problems of the farmer or the manufacturer. This concentration of research people and facilities in the Research Triangle is one of several in the nation; it is unique in the South. The Research Triangle's facilities are available to all of North Carolina's industries. A major feature of the Research Triangle is the 4,000-acre Park, located in the center of the Triangle. The Research Triangle Institute has been established and is in operation to do applied research on contract for industry and Government.

History

Fuquay Springs and Varina are twin cities incorporated into the same city limits of Fuquay Springs.

The site of the once-famous mineral springs, the town was originally named SIPPEHAW, an Indian word which was said to mean "good will." Its history goes back to ante-bellum days when its medicinal springs made the area famous as a health resort to which people came from great distances to drink the water. The original mineral springs is still in existence.

In its early history, Fuquay-Varina was chiefly a trading

and shopping center for the people in this section. About the only manufacturing enterprise was a lumber mill. Today the biggest industry in town is the tobacco market which was started in 1908. It is now the twelfth largest in the United States. There are 12 warehouses and two redrying plants here.

One large industry here hems napkins, towels and diapers. Another industry makes vibrators for auto radios and also for government industrial amplifications. The town has grown both agriculturally and industrially.

The suburbs of the town have spread out in all directions, especially along the highway north and south of the business section. The stores present a fine appearance and include all varieties of merchandising establishments.

The country surrounding Fuquay-Varina is rolling, its location being approximately on the Eastern edge of the industrially important Piedmont section and the Western edge of the coastal plain within 100 miles of the Atlantic Ocean.

It's a growing town, a town where the folks pull together---
Some people may refer to it as Fuquay
Others may refer to it as Varina
Still others may call it Fuquay Springs
Of course it is FUQUAY-VARINA.

Tobacco Market

The Fuquay-Varina tobacco market is the largest bright leaf tobacco market in the world with two sets of buyers and it is showing a more rapid growth than any market in the Middle Belt. It has just completed one of its most successful seasons throughout its long history. A total of 31,525,676 pounds were sold during the season with an average of \$54.52 per hundred. It is believed official figures will show our tobacco market either with the State's top average or near the top. The market has twelve warehouses, two sets of buyers, two redrying plants and storages for over 35,000 hogsheads. Value of annual tobacco crop is about \$20,000,000.

Perhaps one of the most important factors that makes Fuquay-Varina the most outstanding tobacco market in the flue cured area is the geographical location with respect to the area in which quantities of high quality leaf are produced. The market is located in Southern Wake County, in the heart of tobaccoland with more than one hundred and fifty million pounds of tobacco grown each year within 50 miles of the market. It is significant that in 20 years, 1934 to 1954, the market grew from a five million to a thirty-five million pound market.

The Fuquay-Varina market is served by three national highways and one state highway which provide easy, direct access to processing centers and shipping points. The Atlantic ports of Wilmington and Morehead City, North Carolina, and Hampton Roads, Virginia, are six hours or less by highways from the market. The services of two railroads are available for the transportation of tobacco to any point in the nation.

After almost 50 years of growth and seasoning, one of the most important developments has been the character and caliber of the warehouse firms that operate the market. The

Fuquay-Varina firms comprise men with an aggregate of hundreds of years of experience. They know how to display and sell leaf to the best advantage and are experts in the art of public relations and salesmanship. Their warehouses are new, well-lighted and modern. Services to the growers and buyers is a by-word. Perhaps one of the intangible requirements of a good market that falls more properly under the category of facilities, is the atmosphere of friendliness and helpfulness that is found in the warehouse during a sale. This point is recognized by grower and buyer alike over a wide area.

A fine spirit of cooperation prevails throughout the whole community and the Fuquay-Varina tobacco market is valued by all.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

The power of light to sell goods has been demonstrated time and time again in stores throughout the country. People will buy what they can see well . . . they will buy more freely in the atmosphere of a modernly lighted store . . . they will be more satisfied with their purchases. Light also can be used to call customers attention to certain goods through flood-lighting or spotlighting, and its applications to the display of merchandise are almost endless.

The proper use of light is a powerful sales tool . . . a sales tool that you can use with profit in your business.

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live?
Does he own his home or rent?
Has he a telephone?
Who are his neighbors?
What does he do for a living?
Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?
Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
What are the latest population figures?
What is the latest statistical and general civic information?
What are the leading industries and activities of the city?
What are the names and locations of the schools?
What are the churches and where located?
Who are the pastors of the churches?
What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood?
Is it a "home-owners" section?
What is the nearest street corner?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the public and office buildings?
If it is a business location, what business?
If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
What is the correct name and address?
Is it a Proprietorship, Partnership or Corporation?
Who are the partners, owners, or officers?

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Includ-
ing a Complete Street and Avenue Guide

1959

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance).

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

WHY A YELLOW PAGE SECTION?

***It is customary to include
a Yellow Page Section in
the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

✱

**The Yellow Page Section is a necessary supplement
to the regular listings; it is good City Directory in-
formation . . . EXTENDED.**

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a *Street and Avenue Guide*. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4
5

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

A *Statistical and Historical Story* of your city; plus miscellaneous other information.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
